Dear Nagel,

many thanks for your telegram and letter. Meanwhile I had Sidney Hook's letter, and on the basis of this information from both you andhim I decided, like you, to reject the invitation. I sent a copy of my letter to Argentine

was

to Sidney Hook, who will have told you about it. .

There was the possibility of a second course of action: we all could have gone to the congress and given papers in which we insist on academic freedom. This would also have been a demonstration. For the public, the way which you chose is presumably more impressive. And of course, After you and the others had rejected the invitation, it was impossible that I went. In such a case it is very important to act as a homogeneous group. And these is no difference between us as to the aim - since we all have the same opinion about dictators.

But, for this reason, I suggest that you inform all the others. Had I not by chance been informed about your not going, I would have gone. I did not know what you write about the investigation by the Am.Phil.Ass. Do you have the list of all the invited men ? I got one fromArgentina. They give the following names of invited men from the U.S.A.:Krusé, Brightmann, Montague, Perry, Jaeger, John Wild, Helmut Kuhn, Riezler, Frith Kaufmann, Alfred Schulz, Karl Löwith, Farber, Wolfgang Kpehler, Gerhart Husserl, Carnap, Reichenbach, Nagel, Stith Thompson. From England: N.K.Smith, G.E.Moore, Bertand Russell, M.B.Foster, MacDonald Cornford, David Ross.M.Hallet,JohnLaird, A.E.Taylor.

# Philosophy Congre-Box 18, Folder 25

I would suggest that you inform all these men about our - not going. Among the Germans, I would inform Karl Jaspers, who is invited too He is now in Basel). We need not inform N.Hartmann and Heidegger, who would suit bery well the Argentine pattern.

他们还是你们的你们是你们还没有到你没有这个你没有的事情。""你们不是你不知道了!"

There are many men invited from other countries, si and I could give you the list of all, if you want them and do not have them. In particular, Russell should be informed. I think that Koehler, too, should be informed; or has he

atready declined ?

. . .

Many thanks for recommending my mansucript to the Journal !

Dear Reichenbabh,

I hope the telegram Isent in reply to yours has reached you, and that its contents have been of some use to you. Since I sent it off, I heard from Sidney Hook that he wrote you a detailed letter concerning the Argentina congress, including specific data on the repressive measures that have been taken by the feron government against teachers in Argentinian universities. I assume, therefore, that by now you are as familiar as I am with the facts in the case, so that I will not burden you with repetitions.

However, I would like to state briefly the reasons which led me to decline the invitation. The Argentinian ongress is clearly being supported (if not actually inspired -- and some Argentinian exiles believe this is the case) by the Peron government, in part to win good-will in a number of foreign countries. Now assuming the reported facts concerning the dismissal of university beachers because of their political views, it seems to me that accepting the invitation to attend the congress involves a form of cooperation with Peron, and therefore a tacit acceptance if not of endorsement of his illiberal policy toward intellectuals. I do not want to be a party to such cooperation. Frecognize, of course, that refusal to attend the congress (even if all those invited from foreign countries were to decline the invitation unanimously) does not jeapardize the present Argentinian government. But though it may be only a gesture, I do think the gesture is worth making - in part as an expression of solidarity with all those who suffer persecution in their quest for truth, and in part as a way of strengthening the democratic forces in our MEM own country. There are mighty few things intellectuals can do to stem the rising intolerance that is appearing almost everywhere; but I myself would at least like, as far as I am able, to keep my practice consistent with my professed principles.

I realize, of course, that other considerations may be taken into account, which may be estimated to weigh no less heavily on the other side of the argument, by those who decide to accept the invitation from Argentina. I do not for a moment think that the case is a **kinch** black and white affair, and I certainly do not want to sit in moral judgment upon those who disagree with me in this matter. Nevertheless, I confess that I would feel enormously pleased if you too found your way clear to decline the invitation.

With best to you, and personal regards to you and Mrs.

I read your little dialogue between Hume and wussell with interest, and as you have doubtless anticipated I am entirely in agreement with your point concerning the problem of justifying induction. I have submitted your essay to my editorial colleagues with the recommendation that the Journal publish it; however, final decision has to wait until they will have read it. In any event, you ought to hear fairly acon from Mrs. Dean, the secretary of the Journal.
